

TEXA OFFICIAL SUPPLIER TO DIESEL PROFESSIONALS

Our customers deserve the best. The fully rugged and award-winning AXONE Nemo is an excellent example of how we exceed uncompromising expectations. We started with a robust 256GB SSD hard drive, added an ample amount of RAM at 8GB, backed it up with a blistering fast Quad Core processor, and finished it off with a brilliant 12" Gorilla Glass display.

We are all about quality, no compromises.

Diagnostic solutions since 1992.
And for as long as there are diesel professionals.

TEXA

ADVANCED DIAGNOSTICS FOR ALL MAJOR MAKES

Depth and breadth of coverage combined with the best return on investment in Heavy-Duty diagnostics makes TEXA the tool of choice for diesel professionals everywhere in North America.

TEXA IDC5 TRUCK SOFTWARE CAPABILITIES:

- Complete system scan with DTC report
- Live data
- Customize and store your favorite data lists
- Advanced bi-directional testing: compression test, fuel pump test, cylinder cut-off, fan test and more
- Advanced special functions: injector coding, DPF regeneration, PTO configurations, maintenance resets, speed limiters, EGR settings and more
- Integrated fleet management tools
- Wiring diagrams with component locations and component information
- Data recording and "test drive function" for live parameters (up to 8 customized parameters)

WHY SHOULD I CHOOSE TEXA?

- Unparalleled coverage:
From LCVs to Class 8 Heavy-Duty trucks
- Solutions for every budget
- Lifetime software license
- Cost effective updates
- Additional TEXA software available
(OFF-HIGHWAY, POWERSPORTS,
MARINE and CAR)

Interactive Bi-Directionals.

Forced regeneration, injector coding, speed limiters and much more.

Wiring diagrams and technical data sheets.

Live data.

AXONE Nemo rugged tablet:

- Windows 10 proprietary tablet
- Ultrawide 12" Gorilla Glass screen
- Made to military standards
- 8 GB RAM – 256GB Hard Disk
- Bluetooth 4.0 low energy
- 100% developed and manufactured by TEXA

TEXA eTRUCK REMOTE DIAGNOSTICS, WELCOME TO THE FUTURE!

Your customer's truck is stuck on the side of the road with a clogged DPF filter? No problem!

With TEXA eTRUCK you can take care of that filter regeneration remotely in few steps.

How does it work?

The TEXA eTRUCK device is connected to the truck and communicates with the driver's phone via Bluetooth.

The workshop online portal communicates with the phone and lets you operate diagnostic functions easily from your desk.

TEXA eTRUCK gives your shop the ability to monitor the vehicle systems remotely and perform bi-directional capabilities including forced regen, DPF resets and much more... miles away from the truck!

TEXA
e TRUCK®

The driver can...

- Read real time data information
- Monitor his/her driving style
- Schedule maintenance operations
- Perform a remote diagnosis of the vehicle and minimize downtime

The workshop can...

- Monitor the vehicle status remotely
- Perform diagnosis remotely to fix issues or organize his/her on-site call
- Share a calendar of appointments
- Manage the customers' fleets with a single software
- Create a detailed customer profile

The fleet manager can...

- Remotely monitor his/her fleet status
- Minimize downtime and increase efficiency
- Keep track of vehicle maintenance
- Monitor the driving style for safety and driver rewards

TEXA

TEXA (Italian acronym of Electronic Technologies for the Automotive) was founded in 1992 by two visionary entrepreneurs who were experiencing the switch to electronic control modules in the daily activities of their automotive business. Twenty-six years has passed and TEXA has become the European leader in the design, industrialization, and manufacturing of aftermarket diagnostic tools, air conditioning recharging stations, exhaust analyzers and remote diagnostic devices for cars, bikes, trucks, buses, agricultural and marine vehicles.

TEXA has a widespread commercial network of approximately 500 distributors and 9 branch offices in Spain, Germany, UK, France, Russia, US, Poland, Japan and Brazil.

TEXA USA Inc. is the youngest TEXA branch. The office takes care of all operations in the US and Canada with national and local dealers actively promoting the TEXA products all over North America. In only a few years TEXA USA has established itself as one of the premier players in HEAVY DUTY diagnostics. Great results in this field did not compromise TEXA's activities in different environments. Thanks to TEXA's relations with several OEMs its POWERSPORT solution is considered the must-have diagnostic tool for motorcycles and UTVs.

The OFF-HIGHWAY and MARINE environments are gaining momentum and the TEXA SUPERCAR software is a fantastic option for exotic and European cars. Thanks to a solid background in the automotive business, strong principles, and the willingness to go above and beyond to serve its customers TEXA has proven to be one of the leaders in the industry. TEXA makes things happen!
